

I would like to voice my endorsement of New Jersey's DNC list. After signing up for it, we experience a drop of about 99% in telemarketing calls. I do not conduct business over the phone and when solicited I simply hang up. It is a waste of my time and the tele-marketer's time to call because I will not speak with them. I find it offensive that they solicit me in the privacy of my home, without my interest or consent, tying up the phone line that I pay for and usually disturbing our dinner. I ask that you do not overturn NJ's DNC list for being more strict than the Federal DNC. Thank you
